

Are you sick of crawling onto the deck of your ute to get to your tools?

Now you don't have to with **EzySlider** from **Fairview**.

The **EzySlider** is the ideal, safe solution when retrieving goods, tools or cargo from the back of your Ute. Simply turn the grab handle on the **EzySlider** and your tools or cargo come to you, the safe and **Ezy** way.

EzySlider is a simple bolt-in accessory system that will turn your ute into a fully functional working vehicle. The **EzySlider** has a massive 400kg rating of evenly distributed weight and an 80% ute length increase making your ute more versatile than before.

Features:-

- ❖ Need shelving – You can customise your **EzySlider** with additional shelving or tool boxes to suit your own requirements.
- ❖ Non slip rubber mat, a sturdy steel frame zinc coated finish, the **EzySlider** is weather resilient and it looks good.
- ❖ Tuff Deck compatible, for tray and paint protection plus **Ezy** cleaning access.

The simple design allows for easy installation in your Mazda BT50 or Ford Ranger Double Cab and can be installed prior to delivery for new ute's or we can install into your current ute.

Four bolts fixed to the floor of the wellsides secure the **EzySlider** to your ute. A three position spring loaded locking device gives you flexibility and the safety of knowing if you replace your vehicle you can simply transfer the **EzySlider** to your next vehicle.

For additional safety, grab handles placed on both the left and right side of the **EzySlider** allow for better control and safer access, no matter the situation.

EzySlider is the most practical, functional and durable accessory for your ute. Get one today.
